

ICORIA 2018

VALENCIA

Icoria Doctoral Colloquium June 21st, 2018

Faculty of Economics
(Av. Tarongers s/n, 46022, Valencia)

The aim of the 2018 ICORIA Doctoral Colloquium is to provide PhD students with professional skills needed for their academic career. The colloquium gives PhD students the opportunity to learn from the insights and experiences of senior scholars in their field of study. Furthermore, PhD students will meet peers from different countries and start (or continue) building an international network that will be valuable throughout their academic career. The colloquium will cover strategies for research collaborations as well as insider tips and career advice. All participants at the colloquium will also be invited to chair sessions in the main conference. This year we welcome 25 doctoral students to the doctoral colloquium, originating from Austria, Belgium, Germany, the Netherlands, Spain and the United Kingdom.
